# YOUR HEALTH IS OUR CONCERN

Help prevent the spread of COVID-19 by following these best practices during your visit:

Maintain a 6 ft. distance from other people.

Wash hands often with soap & water or sanitizer for at least 20 seconds.

Cover your nose and mouth with tissue or elbow when sneezing or coughing.

If you are feeling unwell, please stay home.

Avoid touching your face, eyes, nose and mouth.

Please wear a mask at all times within the dental office. You will be required to wear it up until your point of care, and following your treatment.
